To Whom It May Concern:

This letter is the City of Greensburg's recommendation for Allied Environmental Sign Company. Allied provided the City of Greensburg with new replacement signs for our Greensburg way finding sign system and our new "Welcome to Greensburg" signs. The sign products met our specifications and their pricing was really on the mark.

Allied's fabrication time was within our timeline and even the shipping of the product went smoothly. I can't say enough how extremely pleased we all are with our relationship with Allied. I should also mention that their professionalism from the beginning of the process lasted throughout the process, thanks entirely to the efforts of Mr. Robert Genz. In my humble opinion, Robert was the key to the success of this project.

In conclusion the City of Greensburg is very happy with our relationship with Allied Environmental Sign Company and we strongly recommend them to communities across our nation and internationally, too!

Sincerely,

Barbara J. Ciampini
Planning Director
