To Whom It May Concern:

Please be advised that Allied Environmental Sign Company provided the Borough of Keyport with the design, implementation, and installation of a very successful way finding signage program.

The program has served as a major visual improvement throughout the Borough. The signage has improved the traffic flow from visitors to our community, which has proved beneficial to our local commercial establishments.

Ms. Natalie Tureaud, and her colleagues at Allied performed in an utmost professional manner. They worked diligently to satisfy all of the Borough's requirements and completed all timelines promptly. Overall, the project was completed prior to our deadline and all work was conducted without any disturbances to our local residents or establishments.

I would highly recommend Allied to your community. If you have any questions or require additional information, please feel free to contact me in the Borough's Office of Community Development at 732-739-5138.

Sincerely,

Carla Cefalo
