Acting Manager  
Division of Traffic & Signals  
**Department of Engineering**

May 21, 2010

To Whom It May Concern:

The City of Newark, Department of Engineering between 2008 and 2010 contracted with Allied Environmental Signage to fabricate and install Way finding Signs. Allied was timely in all phases of contract execution, and responsive to all questions and contract requests from my office. Fabrication and construction was of high quality, with attention to detail.

In short, Allied and its courteous professional staff made this project run very smoothly. We are very happy with the end result and could not have hoped for a better signage contractor.

If you have any questions concerning the above, please contact my office at (973) 733-3985.

Sincerely,

A handwritten signature in black ink, appearing to read "Jack M. Nata".

Jack M. Nata  
Acting Manager
